Message from the President

December 2022

We will be having a meeting this week, Wednesday, December 7th. The meeting will start at 7:30 at the La Romeria Park community room.

We have received a complaint regarding a plane that was flown at Del Cerro Park in early November. We will share the details regarding the complaint and discuss the clubs position on the issue at the meeting. Please attend the meeting for this discussion. Your input and comments would be appreciated.

Attending the December meeting is also a perfect opportunity to turn in your PSF paperwork and fees for 2023. Don usually has the applications available at the meeting. You can download them from the PSF website ahead of time, as well.

I managed to get out to the Chino Airport in November and December for Planes of Fame's flying demos. Their Bearcat flew in November followed by the Zero in December. The Zero is the only flying airframe powered by the original power plant. It was impressive, to say the least. In November, the area Austin Martin club put their cars on display, as well. It's hard to go wrong when you combine beautifully-restored cars and WW2 aircraft in the same event. I've enclosed photographs of both events.

As expected, there isn't a lot scheduled on the AMA Event Schedule for [December](#). However, there is a control line Toys for Tots event in El Monte. If you attend any of the events listed, consider snapping some photo's and submit them and your impressions for inclusion in this newsletter.

The dates for maintenance on the field at Entradero

Park are holding. The field we fly from will be unavailable from December 12th to January 8th. The field will be renovated, leveled and seeded. Please stay off the field during this period. If the schedule changes, I will let you know. Otherwise, the field is available for flying weekdays for the next week or so.

Next Meeting

**Wednesday, December 7th
La Romeria Park
7:30 pm**

The forecast at Del Cerro Park for this coming Saturday, December 10th, is for northwest winds around 10 mph. If this prediction holds, flying at Del Cerro won't be possible for gliders.

Keep an eye on the forecast as the week progresses. The conditions may improve.

If you know anyone who is interested in joining the club and flying at our fields, please point them to the [PSF membership package](#).

Upcoming Fun-Flys

**Del Cerro December 10th
Entradero None**

Please submit your 2023 paperwork and fees when you get the chance. Contact Don regarding any membership questions you may have.

I hope everyone has a great holiday season with friends and family - and I hope to see you at the meeting this week to discuss Del Cerro.

All the best,
Jeff
