

Hot Air

Message from the President

February 2020

With the New Year starting on a Wednesday, we didn't attempt to have a meeting in January. We don't have any flexibility with the meeting room at La Romeria Park. We either make our reserved date of the first Wednesday of the month, or we don't have a room.

Regardless, I hope everyone had a wonderful holiday season with family and friends.

And here we are in February already. We will be having a meeting this Wednesday, February 5th, 7:30 at La Romeria Park.

Don should have your renewal paperwork for the club which will save you the hassle of printing out the forms and mailing them in. Bring your current AMA membership card to speed up the process. Dues and field fees have not changed for 2020. If you can't make the meeting, the PSF application forms can be found on the [website](#).

If you got a new ride over the holidays, please consider bringing it to the meeting and sharing your experiences with it with the other members. Some really interesting projects have made it to the meetings recently and it's always interesting to see what our members have been working on.

That said, it wouldn't be a meeting if Bob Okita didn't show up with a new project! I have included a couple of photographs of Bob's orange and white FPV stick. If you are interested in FPV, Bob is one of the most experienced guys in our club. Bob is planning to attend Wednesday, so stop by and see what he's been up to.

The Entradero field is in great shape! Late last fall, the field and clay was laser-leveled. It's really a great field to fly from. A few times over the last couple of months, the field has been available on Sunday mornings, so don't count out a weekend opportunity to fly.

Next Meeting

**Wednesday,
February 5th
La Romeria Park
7:30pm**

The field and park lock combinations were changed a few months ago. If you do not have the new combinations or if you have any issues with gate or field access, please contact Don or me. Remember that only club officers can distribute the combinations to club members and that it's up to every member to ensure our field rules are followed. This really helps protect our ability to continue using the facility.

This month's Del Cerro Fun Fly will be held Saturday, February 8th. Guys usually start arriving between 12:00 and 1:00. The long range forecast is for southwest winds to 10 mph and partly cloudy skies. With highs in the mid-sixties and scattered clouds, thermals over the flats may not be happening but the slope should be flyable. Charge up a sloper and head on up to the hill this weekend.

Upcoming Fun-Flys

**Del Cerro February 8th
Entradero None**

I hope to see you at the meeting this Wednesday or at one of the fields. Please get your membership package in to Don, as we are in the club re-charter period. It is easier to submit your membership with the re-charter package.

All the best,
Jeff
