

Hot Air

Message from the President

June 2022

We are fast approaching Summer. I hope everyone is doing well, considering the uptick in COVID cases and all the crazy stuff going on in the world today.

With the increase in COVID infections, Los Angeles County Department of Health is once again strongly recommending masking indoors. We will be holding a meeting at La Romeria Park this Wednesday, June 1st. Please wear a mask if you are planning to attend the meeting. We will start at 7:30 PM.

Next Meeting

**Wednesday, June 1st
La Romeria Park
7:30pm**

Over the last several months, we have been made aware that some of our members have not been receiving the newsletter. When you receive the June newsletter, please let Chris or me know so that we can determine who is not getting it. Also, if you see a PSF club member, ask them if they received it and let us know if they did not. We do not know what has changed but some of the members that were receiving the newsletter no longer do, including me.

May 12th thru the 15th, the Arizona Commemorative Air Force group flew their B-17 and B-25 bombers at Chino. Rides in both planes were available and sold out quickly. I've included a few pictures of both planes in this newsletter. you can find all the details at the [Planes of Fame](#) website.

There are a variety of glider, scale and competitive events in California this month. Please share photos and your thoughts, if you attend any of these meets. All the events can be found [here](#).

The West Torrance Little League schedule is finishing up and will conclude mid-June at

Entradero Park. The Torrance school schedule concludes about the same time. This means that the field we fly from should remain available to us weekday mornings. However, there may be more youth at the park. Weekends will still be a challenge, as club baseball and tournaments may be scheduled.

Please let us know if there are any field access issues.

Parking at Del Cerro remains unchanged. Flying should be great June 4th for the Fun-Fly, if the weather holds. The long

range forecast is predicting 13 mph winds out of the south-southwest and partly cloudy skies, temps in the low 70's. Guys usually show up around noon for the Fun-Fly.

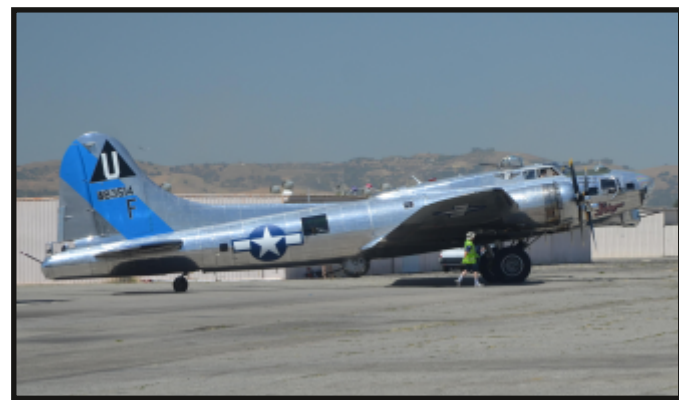

Once again, please get your PSF renewal completed and mail it to Don. Don will also be at our Wednesday meeting this week if you want to turn in your package in person. You can always find the package on our [website](#).

Head out to the fields and put a plane in the air. The flying has been great lately. It would be great to see you at the fields or the meeting.

All the best,
Jeff

B-25 & B-17 Bombers at Planes of Fame

*Still need to renew?
Please send Don your package, or
bring it to this month's meeting.*
